(1) Background

Hewlett-Packard GmbH (hereinafter referred to as HP) is managing and operating the IMDS (International Material Data System) which is used for material reporting in the automotive industry world-wide.

Based on requests of IMDS users for comprehensive material data reporting in order to fulfil REACH and other legal obligations, HP is offering this service to appropriately registered companies in addition to existing reporting functionality in IMDS and other services provided by HP.

(2) Scope of IMDS REACH Report Service

Prerequisite is that the requesting company (subsequently called client) is an IMDS registered company based on IMDS' Terms of Use. Upon client's request HP will provide a proposal containing description of the service, its execution details (e.g. one time service vs. repeated) and the pricing.

The data contained in the IMDS REACH Report is the material data based on current and released versions of all component material data sheets received or prepared by the client. The content is defined in the service offering published in the IMDS Advanced Solution web pages under:

http://services.mdsystem.com/magnoliaPublic/en/services/imds_reach_reports.html

The client can select between the following output formats of the data contained in the report:

- XML (Extensible Markup Language),
- CSV (Comma Separated Values)
- Microsoft Excel.

(3) Cost of IMDS REACH Report Service

Upon client request to the IMDS Advanced Solution Service Desk, an individual client proposal will be provided containing the pricing based on component material data sheets amount and structure of the client's registered company stored in IMDS.

The file format and content (data attributes) based on the standard IMDS REACH Report Service as well as the number and timing of requested IMDS REACH Reports Services will be described.

(4) Payment Terms and Taxes

HP will invoice the client after the IMDS REACH Report has been sent to the named client contact. All charges are payable within 30 (thirty) days without any deduction. Any amount not paid when due will bear interest until paid at a rate of interest equal to eight percent per annum more than the deposit facility rate established by the European Central Bank. All invoices submitted by HP include the applicable value added tax ("VAT"). The client will bear the cost of and either pay to HP, or reimburse HP for the payment of amounts equal to any and all present or future taxes, assessments, duties, permits, tariffs, fees, and other charges of any kind, however designated, assessed, charged or levied, now or hereafter, including state, local, sales, use, property, gross receipt, provincial, excise, value-added goods and services, transaction or similar liabilities imposed in connection therewith, arising from or imposed by the IMDS REACH Report Service excluding income taxes that are based on or measured by HP's net income. All invoices will be issued in Euros.

For the sole purposes of invoicing the IMDS REACH Report Services, HP shall be entitled to disclose the company data, such as company name, contact person's name and address, provided by the client to a third party.

(5) Responsibilities of HP

HP shall be responsible for the creation of the IMDS REACH Report as described in the proposal based on the company data stored in the IMDS database, but has no responsibility for the data content of the client's IMDS data.

HP schedules in accordance with the client the point of time for the IMDS REACH Report to be generated. In case of repeated service, every time the IMDS REACH Report is generated the scheduling has to be defined.

In case of changes to the IMDS REACH Report data specification during execution of a contract the client will be informed accordingly.

HP has the right to refuse the IMDS REACH Report Service provision in case of negative impacts to the technical environment of other IMDS services due to execution of the IMDS REACH Report.

(6) Limitation of Liability

HP will not be liable for any damages resulting from the receipt of the IMDS REACH Report unless caused by wilful misconduct or gross negligence of HP. In case of gross negligence, the liability of HP will be limited to such damages which may typically occur in comparative circumstances.

(7) Responsibilities of the Client

Only in case of interest the client is asking for a formal proposal for the IMDS REACH Report Service from HP. The client names a contact person for all aspects of the preparation, execution and closing of the contract for the IMDS REACH Report Service.

(8) Confidentiality

The client shall neither pass on to any third party any data or other information received from the IMDS REACH Report Service, nor share or exchange with any third party such data or information gathered through this service. This includes as well documentation for the execution of the contract (e.g. proposal for the IMDS REACH Report Service).

(9) Force Majeure

HP shall not be liable for any default or delay in the performance of its obligations under these IMDS REACH Report Service Terms and Conditions if and to the extent such default or delay is caused, directly or indirectly, by: fire, flood, labour disturbances which present an unreasonable safety risk or prohibit access, earthquake, elements of nature or acts of God; riots, civil disorders, rebellions or revolutions in any country; or any other cause beyond the reasonable control of HP, provided HP is without fault in causing such default or delay, and such default or delay could not have been prevented by reasonable precautions and cannot reasonably be circumvented by HP through the use of alternate sources, work around plans or other means. In such event, HP shall be excused from further performance or observance of the obligation(s) so affected for as long as such circumstances prevail and HP continues to use commercially reasonable efforts to recommence performance or observance whenever and to whatever extent possible without delay. In such case HP shall without undue delay notify the client and describe at a reasonable level of detail the circumstances causing such delay.

(10) Governing Law and Jurisdiction

The validity, interpretation and implementation of these IMDS REACH Report Service Terms and Conditions and the rights and obligations of the parties hereunder shall be construed in accordance with and be governed by German law. The exclusive place of jurisdiction for all disputes arising from and regarding this agreement is Frankfurt am Main, Germany.

(11) Final Provisions

If any regulation of these provisions proves to be invalid or not feasible, the effectiveness of the other regulations shall remain unaffected thereby. The foregoing regulation shall apply mutatis mutandis in case the agreement should contain loopholes.
