

6172 IMDS - General Rules and Guidelines

Learning target

You already know the content of the „General Rules and Guidelines“ concerning the IMDS-datasheets, which will be effective in February 2010. In the seminar you get to know these new requirements of the IMDS with the help of demonstrations and detailed explanations. You are familiar with the meanings of the different datasheet definitions and exceptions in the IMDS and you can apply them safely during the creation of your datasheets. You are able to efficiently integrate the consequences of the new guidelines in your IMDS-process and you avoid additional expenditure caused by unnecessary time for corrections. You support an efficient customer-contractor relation and avoid refusal of datasheets.

Seminar contents

- ✂ - Relevant legal requirements
 - End of life vehicle 2000/53/EG and new attachment II
 - Type Approval 2005/64/EG
 - Annex IV 2009/1/EG
 - and more
- ✂ The new „General Rules and Guidelines“
 - The relevant changes
 - Differences between rules and guidelines in IMDS
 - Interpretation of error and warning signals
- ✂ Reporting and Change Management in the IMDS
 - Reporting of a MDS in the IMDS
 - Maintaining the supply chain in the IMDS
 - Change Management in IMDS
- ✂ Material datasheet definitions, rules and guidelines in the IMDS
 - Design of an MDS tree structure
 - Definition of part
 - Definition of semi component
 - Definition of material
 - Definition of a basic substance
 - Basic substances list (BSL), GADSL and SVHC in IMDS
- ✂ Exceptions in the IMDS
 - Confidential basic substances in a master batch
 - Restrictive use of a flat BOM
- ✂ Questions out of practice
 - Discussions
 - Approach

The accuracy of material data in the IMDS is a basic aspect to assure compliance with the legal requirements. This seminar gives you

detailed information about the new, essential changes in IMDS and shows you how to create material datasheets in IMDS correctly.

Teaching methods

Recital and demonstration

Attendants

Guarantors of the domain IMDS quality management, construction, material laboratory, environmental management.

Requirement

Basic knowledge in handling of IMDS.

Length of seminar

1 day, from 9 to 17 o'clock

Max. number of participants: 16

Certificate

As attendant of our authorized IMDS training you obtain a personal certificate, in order to prove your qualification.

Seminar documents

You obtain a personal copy of the presentation accompanying the seminar. Further information is available in the download area on our website.

Public seminars

Current prices and dates are available on our website: www.imds-professional.com

Exclusive Seminars

The seminars can also be booked exclusively, we charge a daily remuneration. Your advantage: You determine the place, date and number of attendants. On demand we take care of the whole organisation.

Gladly we provide you with our rooms, media, hardware and software and on demand service and catering too.
