

6140 IMDS - a2 Optimizer (Advanced Accelerator)

Goal

You know the application area and the functional range of the a2-application. You are able to estimate and value the advantages of the a2 for your daily work.

You are able to install the IMDS-a2-optimizer and to arrange an individual user area. You know the a2-functions and you can use them efficiently. Therefore you reach an optimal data management and a high data quality.

Content

- Application area and range of functions
- Installation and implementation of an individual user area
- Working with the a2
 - Buttons of the main window
 - Structure and operation method, search functions
- Creation of a material data sheet (MDS)
 - Assisting applications (parallel search windows, Drag & Drop etc.)
 - Referencing of existing data sheets
 - Send, propose, internal and publish
 - „Received“ and „sent“
 - Copying and saving of a data sheet
- Examiner
 - Creation and administration of profiles
 - Defining of own check routines
 - Checking of incoming data sheets
- „Received“-automation
 - Checking of „received“ with a flexible timing
 - Automatical acceptance of incoming data sheets
 - Automatical generation of a reject reason
- MDS-request
 - Procedure and application as well as status abbreviated designations
 - Handling of incoming MDS-requests
 - Creation of own MDS-requests
- Dashboard
 - Status overview of received and sent MDS-requests
 - Identifying of overdue MDS-requests
- Report manager
 - Reports (invalid nodes „referenced MDS“...)
 - Application-code and parts marking
 - Structure validation

By the definition of a2-check routines you extensively reduce your manual check efforts and you have a share in a standardised quality assurance.

You may extend your knowledge by attending our trainings “IMDS for advanced users” and “IMDS/REACH – checking, analysing and reporting of materials”. Additionally you can use the a2-functions more effectively.

Training method

Presentation with practical exercises

Participants

You would like to be informed about the different a2-functions and how to use them efficiently.

Requirements

Basic knowledge in the use of PC's and the internet as well as a good general knowledge of the IMDS-application.

Training duration

1 day, from 9 a.m. to 5 p.m.

Maximum number of participants: 12

Personal training licence

In our trainings you work on the special training system of EDS. Additionally you receive a cost-free ID for a personal training licence valid for 4 weeks after the training.

Certificate

As a participant of our authorised IMDS-trainings you receive a personal certificate to prove your IMDS-qualification.

Training documents

You receive a personal exemplar of the presentation that is used in our training as well as a copy of the a2-user manual developed by EDS. Further information can be found in our download-area in the internet.

Public training

Current prices and dates can be found on our internet site www.imds-professional.com.

Exclusive training

You can also book this training exclusively. Then we would charge a daily fee. Your advantage: You set time, place and number of participants. If preferred we also take over the whole organisation for you.

We also provide you with our room facilities and technics. If preferred, we also take care about service and catering.

Please request your personal offer:
