

6121 International MaterialDataSystem - Basics 2

Goal

You know the different requirements of data entry in the IMDS and you are able to value and consider them for your own application. You know the difference between a module and a material data sheet and based on this you are able to establish an efficient data organisation.

You are able to make an analysis of your own data. Additionally you know, which functionalities the administration menu contain and which profiles are administrated in the IMDS. Therefore you have the ability to finalise and to manage own material data sheets with consideration to legal requirements, IMDS-recommendations and OEM-specifics.

You can deal with all classic IMDS-functionalities and you can also represent complex tree structures.

Content

- Refreshment of the basic knowledge
 - Case study „complex tree structure“
- Requirements
 - ELV End-of-life-vehicle Directive 2000/53/EC
 - IMDS-recommendations
 - OEM-requirements **and acceptance criteria**
- IMDS-guidelines
 - General Structure
 - Flat-Bills-Of-Material (FBOM)
 - Umbrella-specifications
 - Further special guidelines
- MDS-request
 - Procedure and application
 - Handling of incoming MDS-requests
 - Creation of own MDS-requests
 - Status-short terms
- Analysis
 - Detailed MDS-analysis
 - Certificate of expenditure
 - Use of analysis function in practice (amongst others REACH-SVHC)
- Administration
 - User profiles
 - Function of a client manager and contact person
 - Define IMDS and REACH contact persons
 - MDS-Statistics

Now you are fit for a self-contained IMDS-handling in practice!

For a further impression and a high efficiency we recommend an attendance at our training „IMDS for advanced users“. This training informs you about

Your advantage:

If you book Basics 1 and 2 altogether, you will receive a discount of

current IMDS improvements and enables you to identify and to use optimisation potentials.

Training method

Presentation with practical exercises of complex tree structures.

Participants

You are familiar with the creation and/or checking of MDS and you would like to improve your basic knowledge. Additionally you would like to intensify your knowledge with regard to detailed requirements, data organisation and administration.

Requirements

Basics knowledge in the use of PC`s and the internet as well as a good general knowledge regarding the definitions and core processes in the IMDS.

Training duration

1 day, from 9 a.m. to 5 p.m.

Maximum number of participants: 12

Personal training licence

In our trainings you work on the special training system of EDS. Additionally you receive a cost-free ID for a personal training licence valid for 4 weeks after the training.

Certificate

As a participant of our authorised IMDS-trainings you receive a personal certificate to prove your IMDS-qualification.

Training documents

You receive a personal exemplar of the presentation that is used in our training as well as a copy of the user manual developed by EDS. Further information can be found in our download-area in the internet. Here you may also order our IMDS-expert information.

Public training

Current prices and dates can be found on our internet site www.imds-professional.com.

Exclusive training

You can also book this training exclusively. Then we would charge a daily fee. Your advantage: You set time, place and number of participants. If preferred we also take over the whole organisation for you.

We also provide you with our room facilities and technics. If preferred, we also take care about service and catering.
